

## Rainforest WebQuest Notes

**Directions:** As you complete the Rainforest WebQuest, write down what you learn on the spaces below.

**Section One: Where are tropical rainforests located? Where is the largest rainforest located?**

---

---

---

---

**Section Two: Layers of the Rainforest** – Write the name of each layer in the correct box below (tallest layer in top box and so on). Then write a short description of each.

Layer	Description

**Section Three: What products come from plants in the rainforest? How have different plants adapted to life in the rainforest?**

---

---

---

---

**Section Four: How many different kinds of insects live in the rainforest? What percentage of the world's animal species live in the rainforest?**

---

---

---

---
